

March 10, 1958

Dear Dan:

25X1A

Enclosed are two executed copies of contract [REDACTED] which have been signed subject to the exceptions herein.

SECTION B - 1. CONSIDERATION AND PAYMENT

We would except to the last sentence in this paragraph which provides for proration of fractional parts of a month on the basis of the number of calendar days on which services were performed.

We would assume that this means the number of days on which services were performed in the field. This was not our intent.

The field service engineer in question is a specialist for this type of service only. We are maintaining him on our payroll specifically for work to be performed under this contract and we would have no occasion to use his services on such days as he might not be in the field.

We, therefore, feel that we should be reimbursed for his time whether or not he is performing field service, and should appreciate your revising the contract accordingly.

APPENDIX 1 - Item 1 - paragraph 2.

This section calls for an adjustment of both the per diem rate, the man-month rate in the event of government furnished quarters and/or subsistence. We wish to point out that although an adjustment in the per diem rate would be in order, such an adjustment should not affect the man-month rate. You will note that our cost breakdown submitted in support of the man-month rate does not include an element of cost for subsistence.

If you concur with our understanding, we suggest you delete from paragraph 2 of Item 1, Appendix 1, the following words, "and man-month rate."

Very truly yours, [REDACTED]
